Overview

The GA5100 rack-mountable 3 zone public address amplifiers offer users with an easy and convenient solution for public announcement, relay and other commercial applications. Input is achieved via three combo jacks for microphones plus two line-level input channels. Line input 1 accepts RCA and 1/4" connectors while line 2 accepts RCA and 1/8" mini-stereo jacks. Onboard USB playback allows users to play audio directly from USB flash drives, while built-in chime alert and announcement tones enable for quick and easy emergency talkback. Offering 100 Watts split between three zones, the GA5100 are the most flexible yet powerful public address amplifiers available in today's commercial/installation pro audio market.
