- › Two dynamic microphones with mic clips, cables and pouch
- › Two 30 ft speaker cables
- › Storage compartments for microphones, cables and accessories
- › Two slots for optional wireless microphone receivers
- › Operates on AC or DC power

RoadGear is a totally hassle-free, mobile sound solution. RoadGear is a self-sufficient system housing two 8" 2-way speakers, a powered mixer, a dynamic microphone (2 on the RoadGear 260 Plus) and all the necessary cables. The road-worthy, high-impact modular polymer construction in a wheelbase, luggage-style cabinet makes RoadGear the ideal mobile sound solution for live performers, schools, churches, conferences, special events, and anywhere that calls for a quick, fuss-free set-up. The two detachable speakers feature an advanced high-pressure molded enclosure, designed for better handling of audio acoustics and improved sound dispersion. The packaged powered mixers also include tone control, effects and system equalization.
